This work was supported in part by TEKES as part of the Future Internet programme of TIVIT (Finnish Strategic Centre for Science, Technology and Innovation in the field of ICT).

## Executive summary / Internal release

Title: A Conservative Selective Acknowledgment (SACK)-based Loss Recovery Algorithm for TCP (draft-ietf-tcpm-3517bis-02.txt)

Will be published as an IETF Standards Track RFC

Content: Standard TCP congestion control algorithm using Selective Acks

Impact: The algorithm is expected to be implemented in TCP/IP stacks by all major OS vendors (Linux implementation exists)
